# Efficient and Convenient Bale Wrapping

Agri-Stretch® Extra Plus class leading features give superior sealing of your silage for the best quality feed.

Feature	Benefit
Class leading oxygen barrier	Minimizes spoilage, maximizes silage quality
Very high puncture resistance	Fewer punctures, fewer repairs, no mould, better silage
Optimal adhesion (high tackability)	Stops water, stops air, reduces tails, maximizes silage quality
Very High UV resistance	Maximizes life of wrap, no breakdown of wrap, better silage
Plastic Core	Gives strength, prevents collapse of core due to moisture, easy to use
70% stretch (up to 80%)	High yield of bales from each roll
High temperature stability	No telescoping or loss of tack effectiveness under Australian conditions

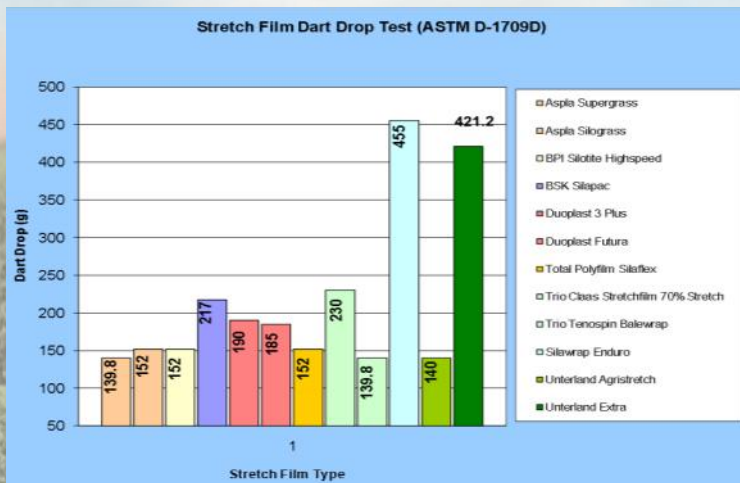

**Graph 1 Stretch Film Oxygen Barrier**

Shows superior oxygen barrier of Agristretch Extra Plus compared to other silage film

**Graph 2 Stretch Film Dart Drop Test**

Shows superior puncture resistance of Agristretch Extra Plus compared to other silage film

## Agri Stretch® Extra Plus Specifications

750mm x 1500m x 25µ

Grass Green

32 rolls / Pallet

12 months UV resistance

AgriStretch is a registered trademark of Unterland Flexible packaging AG, Austria.

\*Based on 1.2m diameter round bales
