## DIRECTIONS FOR USE

SPRAYER	RATES	CRITICAL COMMENTS
Broadacre boomspray	200ml - 1 L / 100L	Use the lower rate when using low application rate doses of chemicals.
Aerial CDA ULV	Low volume 200ml - 2L / Ha	
Hand Gun	Spot Spraying 15 - 30 mL per 10 L water	Use the higher rate when using larger dose rate chemicals and mixes.
Knapsack	150 - 200 mL per 100 L water	
Tree Orchard Plantation	High Volume	
Spraying	100 - 200 mL per 100 L water	

**NOT TO BE USED FOR ANY PURPOSE OR IN ANY MANNER CONTRARY TO THIS LABEL UNLESS AUTHORIZED UNDER APPROPRIATE LEGISLATION.**

### GENERAL INSTRUCTIONS

PROMAX will maximise the performance of horticultural and agrochemical sprays by increasing droplet deposition, droplet spread and uptake into the target. PROMAX is designed to aid the formation of uniformly sized spray droplets to reduce water evaporation and therefore minimise drift. PROMAX mixed sprays are rain fast within minutes of application. PROMAX is non-phytotoxic at recommended rates and is compatible with most commonly applied chemicals. It can be used with herbicides, fungicides, insecticides and other foliar sprays.

### MIXING INSTRUCTIONS

1. Fill spray tank to three quarters of required water volume.
2. Add pesticide to spray tank whilst mixing continuously.
3. Add measured amount of PROMAX to the spray mix.
4. Top up with water to required volume whilst mixing.

### CAUTION

DO NOT mix pesticides together before adding to spray tank and add individual products one at a time. To avoid excess uptake of pesticide material damaging crop always test the rate applied by application to a small area prior to full scale spraying with a product.

### COMPATIBILITY

PROMAX is compatible with most commonly applied chemicals including herbicides, fungicides, insecticides and other foliar sprays however always check the pesticide label and if in doubt test mix a small quantity or talk with your local nursery or chemical supplier.

### PROTECTION OF WILDLIFE, FISH, CRUSTACEA AND ENVIRONMENT

DO NOT contaminate streams, rivers or waterways with the chemical or used containers.

### STORAGE AND DISPOSAL

KEEP OUT OF REACH OF CHILDREN

Store in the closed, original container in a well-ventilated area, as cool as possible. Do not store for prolonged periods in direct sunlight. Triple or preferably pressure rinse empty containers before disposal. Add rinsings to spray tank. Do not dispose of undiluted chemicals on-site. Break, crush, puncture and bury empty containers in a local authority landfill. If not available, bury the containers below 500mm in a disposal pit specifically marked and set up for this purpose, clear of waterways, vegetation and roots. Empty containers should not be burnt.

### SAFETY DIRECTIONS

Do not swallow. Avoid contact with skin or eyes. Wear rubber gloves, overalls and goggles or face shield. Wash hands with soap and water after use.

### FIRST AID

If poisoning occurs, contact a Doctor or Poisons Information Centre Ph: 13 1126 Australia wide or New Zealand 03 4747 000.

### CONDITIONS OF SALE

PROMAX is supplied as a high grade product and is suitable for the purpose which it is expressly intended and must be used in accordance with the directions for use. Because Grevillia Ag has no control over handling, storage or use of PROMAX, the business makes no express or implied representations or warranty (other than non-excludable statutory warranties). This product is sold on the condition that the buyer and/or user assumes all risks of the handling and use of PROMAX as well as the results obtained from its use.
